Crude fiber, max. 4%
Moisture, max. 10%
Metabolizable energy (calculated) 4100Cal/kg
Primary fat source: chicken fat or pork fat

Primary fat source: Chicken fat

Momentum Premium Athletic Dog Food has been formulated to help facilitate the stamina, endurance and performance of canines. The food contains highly digestible proteins, fats and carbohydrates to power your dog down the trail. In addition, supplements are included to decrease the stresses that dogs' bodies undergo in highly competitive situations that may produce stress diarrhea. These supplements include both prebiotics and probiotics, several fiber sources such as rice, psyllium, beet pulp, oatmeal and chicory root, chelated vitamins, kelp, preservatives and carnitine. To minimize allergic reaction, corn and soy products are not used in Momentum. Momentum Premium Athletic Dog Food has been formulated through the combined efforts of a PhD canine nutritionist and a veterinarian experienced in athletic and competitive dog sports.

Ingredients:

Chicken meal, rice, chicken fat (preserved with mixed tocopherols and citric acid), herring meal, beet pulp, dried egg product, flaxseed meal, oatmeal, canola oil, natural flavor, salmon oil, dried chicory root, salt, potassium chloride, yucca shidigera extract, vitamins (niacin supplement, vitamin E supplement, d-calcium pantothenate, vitamin A supplement, riboflavin supplement, menadione dimethylpyrimidinol, bisulfite (source of vitamin K activity), dried microbial fermentation products (Lactobacillus acidophilus, Lacobacillus casei, Enterococcus faecium, Bifidobacterium thermophilium), kelp meal, psyllium seed husks, L-ascorbyl-2-polyphosphate, trace minerals (iron sulfate, zinc oxide, manganous oxide, copper sulfate, cobalt carbonate, sodium selenite, ethylenediaminedihydiodide) chelated trace minerals (zinc amino acid chelate, manganese amino acid chelate, copper amino acid chelate), carnitine, rosemary extract.

Momentum is formulated to meet the nutritional levels set by the AAFCO Dog Food Nutrient Profiles for maintenance of adult dogs.

Optimum Vitamin Nutrition™ provides all known vitamins in the diet at levels that permit optimum health and productivity of domestic animals. Optimum foot pad, skin and coat health – Momentum with added biotin, DHA, and zinc – essential nutrients in maintaining the normal structure and function of the foot pad, skin and coat.

Feeding Directions

Use a standard 8 oz. measuring cup. Always feed to maintain ideal body condition. Adjust individual amount as needed considering activity level, environment and age.

Dog weight amount per day

40 – 60lb 2 1/4–3 1/2 cups

60 – 85lb 3 1/2–4 1/2 cups

85 – 100lb 4 1/2–4 3/4 cups
